I really live a Tupperware life! I say I have two families—my family by blood, and my Tupperware family. Both help me to be successful and both fill me with pride. With the Tupperware Opportunity, I made my dream come true and now, I help my two families to do the same.

Every year I have a goal and I share it with my family, so that together we work to achieve it. One year the goal was to qualify for the Tupperware trip to Disney. We have already gone three times! Another year the goal was to achieve Elite title, and we did it! Another goal was to qualify for a car, and today I am driving my fifth Tupperware car. Ever since I was little, my dream was to have my own home. After many years of paying rent, two years ago, with my husband and my children, we put the down payment

on our house with my check from Tupperware! **Seeing my accomplishments, my children know that, with hard work and dedication, one can achieve their dreams.**

I started my Tupperware business eight years ago, and today I have a team of 79 girls. **My Director taught me the power of party demo and my life changed.** At the party, my favorite thing to do is to change the perspective of someone who does not know about Tupperware, by teaching them the benefits of the products and their lifetime warranties. I am filled with pride when I take my team to a park or a shopping center, and together we talk to people and share all the good things that Tupperware brings. Seeing them with such confidence, and seeing the change in the people who did not know what kind of business Tupperware is today, is one of my most favorite things!

I appreciate all my triumphs, but I still think I can do much more! With love, with passion, humility and honesty, I can do much more!
